About the Training Program:

The Clinical and Public Health Research Training (CPHRT) Programme aims to develop and nurture young Physician-Scientists for improving clinical and public health research ecosystems in India. Students / Doctors / Researchers / Public Health Professionals who have completed MBBS or are either pursuing or have completed MD / MS / DNB/ DM / MCh. / MPH and are interested in undertaking short-term hands on training for three months are eligible to apply. The training will -

Include clinical or public health research. The potential candidate will have the option of choosing integration of either clinical or public health research (which will depend on the research areas undertaken by the clinical mentor)

- ✓ Provide instruction and training in research design, research ethics, community research and statistical analysis through mentored research training based on the research topic selected
- ✓ Provide opportunities in diverse areas of research relevant to India's health priorities along with information on various funding agencies / scholarships for future studies / fellowships and more

The trainee will receive a certificate after successful completion of the program.

Candidates should note that:

- Duration of training would be three months between June to September 2022
- As part of the training it is expected to complete 20 hours of work per week (online or in person will depend on the type of work undertaken based on the training selected)
- A short research study will be undertaken during the training period
- No fee will be charged from the selected candidates for the training program
- No accommodation will be provided to trainees
- Selection would be done by a selection committee nominated by Director, ICMR-NIRRH
- Decision of the Committee will be final
- The work carried out and data generated would belong to ICMR-NIRRH, Mumbai and it should not be reproduced in any form by the trainee without written permissions
- Selected candidates would be intimated by email in the month of June 2022
- Any queries regarding CPHRT Program should be addressed to pgstudies@nirrh.res.in

Only online applications will be entertained. Interested candidates should apply up to **31stMay 2022**. The link for online form is <https://summerschool.nirrh.res.in/>

Keep scanned copies of your degree certificates, a photograph and signature ready at the time of applying.
