Disclaimer

Efforts have been made to make the information available in this document as accurate as possible through the project protocols/documents and the recorded minutes of the meetings of HMSC held during January, 2008 to December, 2012. It would be appreciated that any discrepancy, if found, may be brought to the notice of International Health Division, ICMR Hqrs., New Delhi.

An acknowledgement would be appreciated if any reference/quote is made from this document.

International collaboration plays an essential role in maintaining high standards of research around the world. The ultimate goal is to broaden the scope of investigations into scientific problems, yield new and feasible solutions through research and strengthen the theoretical, methodological, analytical and implementation approaches.

This sequel document provides details of international collaborative projects in health research approved by Health Ministry's Screening Committee (HMSC) during it's nineteen meetings held from January, 2008 to December, 2012.

This document may be used as a reference by the research scientists/institutions and may also be helpful during formulation of policies in health research.
