**Funding & Fellowship Opportunities in Europe**  
**25 March 2020**

**MORE4**

**MORE4 survey on mobility patterns and career paths of researchers working outside Europe!**

***EURAXESS Jobs & Funding***

There are currently **14987 jobs** and **500 Funding opportunities** available on the EURAXESS Jobs database.

***Horizon2020: Fellowships & Funding Opportunities***

**France / Post-Doctoral Position in the field of Theoretical Quantum Chemistry **NEW****

The Laboratoire de Chimie et Physique Quantiques (LCPQ) in Toulouse (Universite Paul Sabatier) gathers more than **20 permanent researchers** working on various areas of computational and theoretical chemistry. The main goal of this project is to develop a new theoretical approach allowing to connect, through the complex plane, electronic states. **Eligibility:** Master's Degree in Chemistry or equivalent. **Funding: 2 135,00 Euros. Duration: 3 years. Deadline: 31 March 2020**

**Europe / 7 PhD positions Translational SYStemics (TranSYS) - Rolling recruitment**

TranSYS project will recruit 7 ESRs (Early Stage Researchers) to highly skilled jobs to advance Precision (Personalised) Medicine in several disease areas. **Eligibility:** At the time of commencement, it is required that the candidate has **not been** awarded a doctorate degree and is within the first 4 years (fulltime equivalent) of her/his research career. Furthermore, the candidate must not have resided or carried out her/his main activity (work, studies, etc) in the host country for more than 12 months in the 3 years immediately prior to his/her recruitment. **Funding:** Attractive 3-year full time employment contract in accordance with the MSCA regulations along with fully paid tuition fee of the PhD program. **Duration: 3 years. Deadline: 1 April 2020**

**Norway / PhD Research Fellowship opportunity in Political Science (Autocratic Politics) **NEW****

**ELDAR** will investigate three aspects of autocratic politics: 1) The emergence of autocratic regimes. 2) Policymaking ("life") in autocracies in the areas of education, infrastructure and industrial policies, social policies and media regulation. 3) Autocratic regime breakdown. **Eligibility:** Candidate must have completed a **Master's degree** (corresponding to 120 ECTS) or an equivalent qualification in Political Science or a related field such as Economics or Sociology. **Funding:** The project is led by Professor Carl Henrik Knutsen and is funded by an ERC Consolidator Grant. **Duration: 4 years. Deadline: 15 April 2020**

### Norway / 48 Postdoctoral Fellowships in Health Life Sciences on MSCA-funded SCIENTIA project **NEW**

SCIENTIA FELLOWS is a research fellowship programme in the field of **Health Life Sciences** launched and managed by the Faculty of Medicine at the **University of Oslo**. **Eligibility:** Candidates must possess a **PhD degree** or have at least four years of full-time equivalent research experience since obtaining a university diploma. Candidates must comply with the mobility requirements that depend on the chosen fellowship scheme. **Funding:** Salary **NOK 515 000** per annum depending on qualifications in position as Postdoctoral Research Fellow (position code 1352) or Researcher (position code 1109/1108). The salary level will be assessed for each individual employee based on current regulations. **Duration:** 5 years **Deadline:** 31 April 2020

### Europe / 12 PhD positions on MSCA Innovative Training Network 'Policies for Smart Specialisation' (POLISS) **NEW**

12 positions are available for Early Stage Researchers across the members of the POLISS Marie-Skłodowska-Curie (MSCA) Innovative Training Network. Smart Specialisation is a successful innovation policy concept which has become a cornerstone of the European cohesion policy and addresses several of the Sustainable Development Goals. **Eligibility:** Early-stage researchers (ESR) in the first four years (full-time equivalent) of their research careers. Researchers must be able to demonstrate their ability to work and write in the English language. **Funding:** The salary varies between **€2500 and €4600** before taxes per month depending on country of host institution. In addition, **mobility allowance** (€600 per month) and (if eligible) a **family allowance** (€500 per month) will be provided. **Duration:** 3 years. **Deadline:** various

### UK/Switzerland / 3 PhD positions: Marie Skłodowska-Curie European Industrial Doctorate Network on DESIGN-EID

The Device Modelling Group at **University of Glasgow (UK)** in collaboration with **IBM Research Zurich (IBM)** in **Switzerland** and Synopsis QuantumATK (ATK) in **Copenhagen** is seeking to appoint three high-calibre Early Stage Researchers (ESR) in the framework of the Marie Skłodowska-Curie European Industrial Doctorate Network on 'Defect Simulations and Material Growth of III-V Nanostructures – European Industrial Doctorate' (DESIGN-EID). **Funding:** Living and mobility allowance as per the MSCA regulations. **Eligibility:** ESRs are required to have a Master's degree, they cannot have more than 4 years of full-time research experience and have not been awarded a doctoral degree. **Duration:** 3 years. **Deadline:** 31 March 2020

### France/Switzerland/Czechia/Others / 11 PhD positions H2020 HEL4CHIROLED Marie Skłodowska-Curie ITN

In the HEL4CHIROLED project, the principal research goal is the preparation of chiral Organic Light-Emitting Diodes (OLEDs) and Organic Light-Emissive Transistors (OLETs) based on new small helical molecules, helical pi-conjugated oligomers, and helical lanthanide complexes. **Funding:** Full-time employment contract as per, Marie Skłodowska-Curie Actions (MSCA) regulations for early stage researchers. **Eligibility:** At the time of applicants may not have lived or carried out their main activity in the country of the host institution for more than 12 months in the last 3 years. PhD fellows must, at the date of starting their contract, be within the first four years of their research careers and have not been awarded a doctoral degree. **Duration:** 3 years. **Deadline:** 10 April 2020

### UK/Spain/France/Switzerland/Denmark / 6 PhD positions in H2020 ETN project MEFISTA - Multi-scale fibre-based optical frequency combs: science, technology and applications

The **European Training Network MEFISTA** – announces **6 positions for Early-Stage Researchers** with the option of being awarded a doctoral degree. **Funding:** The successful candidate Will receive financial package consisting of MSCA living allowance, mobility allowance and family allowance if applicable. **Eligibility:** Candidates with a strong academic background and exceptional grades, who have been awarded, or expect to get before the Project starts, a Master of Science degree in Electrical/Optical Engineering, Physics, or equivalent. **Duration:** 3 years. **Deadline:** 31 May 2020

### France/Switzerland/Germany/others 15 PhD positions in ITN ENTRAIN VISION (Vision restoration)

In the ENTRAIN-VISION project, the Early Stage Researchers (ESRs) will work on innovative technologies for restoring vision in blind patients. Their training in academic institutes or industry will be completed by several secondments, including at least one at an industry partner. In addition, several summer schools will address scientific subjects on vision restoration and transferable skills in technology transfer, clinical trials, start-up creation, communication to the media. **Funding:** Living allowance of **3270€/month(gross)** to be paid in the currency of the

country, Mobility allowance of **600€/month** and Family allowance of **500€/month**. **Duration:** 3 years. **Eligibility:** Degree that formally entitles them to embark on a doctorate in the host country. **Deadline:** **1 September 2020**

#### **France/UK/Spain/Others / 15 PhD positions in the MSCA-ITN 'CCIMC' (coordination chemistry and molecular catalysis)**

CCIMC will enrol 15 Early Stage Researchers (ESRs) who will receive scientific training in **experimental and theoretical** aspects of coordination chemistry and molecular catalysis as well as a wide set of **transferable skills** (chemical risks, scientific misconduct, IPR, knowledge transfer, ethics, time management, outreach communication, and more). **Funding:** Living Allowance of **€3270/month** to be paid in the currency of the country, Mobility allowance of **€600/month** & family allowance of **€500/month**. **Duration:** 4 years. **Eligibility:** Candidates at the date of the recruitment should be within the first four years (full-time equivalent research experience) of their research career and not have a doctoral degree.

#### **Europe - India Fellowship & Funding Opportunities**

##### **India-Europe Call for funding of joint industrial R&D project proposals within the framework of the Eureka network NEW**

India has launched a **Globalstars** call for projects with Austria, Belgium (Flanders), Finland, France, the Netherlands, Sweden and Switzerland with the scope: "key enabling technologies for healthcare, agriculture and water". Participants from India and respective **Eureka countries** are invited to submit joint industrial R&D project proposals within the framework of the Eureka network. **Eligibility:** The consortium should include at least, **one Indian organisation and one (for profit) company** from any of the **Eureka** participating countries in this call. Project partners from other Eureka countries can participate, but they will not be funded by the participating funding bodies in this call. **Funding:** Each funding body will fund its participants according to its **national procedures and funding rules laws, rules and regulations**. **Duration:** 3 years. **Deadline:** **30 June 2020**

##### **India-Portugal / Bilateral cooperation funding opportunities between Portugal and India on Scientific Research and Technological Development**

The Department of Science and Technology (DST), Government of India, and the Foundation for Science and Technology (FCT) of the Portuguese Republic, has launched a call for **joint scientific research and technological development projects** to provide financial support for joint research and innovation activities carried out by scientists from both parties. Overall **Funding** available under this call is **1 Million Euros**. **Eligibility:** Companies of any type and under any legal form if included in SR&TD projects led by non-entrepreneurial entities from the R&I system. **Deadline:** **30 June 2020**

#### **Europe: Fellowships & Funding Opportunities**

##### **Germany / Fully funded PhD positions in natural sciences & engineering at Hector Fellow Academy**

The Hector Fellow Academy (HFA) offers fully-funded PhD positions in **natural sciences, informatics, mathematics, medicine, psychology, or engineering**. Ambitious prospective PhD students get the chance to realize a self-developed research project within the discipline of a Hector Fellow. **Eligibility:** Academic grades & research proposals. **Duration:** Various. **Deadline:** **31 March 2020**

##### **Poland / Postdoctoral position available for a highly motivated applicant experienced in cell biology and/or biophysics NEW**

A postdoctoral position is open for a highly motivated applicant who has experience in cell biology and/or biophysics, and in particular DNA damage and repair mechanisms and confocal microscopy techniques, at Department of Cell Biophysics, Faculty of Biochemistry, Biophysics and Biotechnology, Jagiellonian University in Kraków, Poland. **Eligibility:** Applicants must have a Ph.D. Experience with confocal microscopy and basic cell biology methods required. **Funding:** Applicants must have a Ph.D. Experience with confocal microscopy and basic cell biology methods required. **Duration:** 3 years. **Deadline:** **14 April 2020**
